

2011-2012

Science Foundational Kit Use Workshops for Elementary Special Sifting Through Science Session

12 hours of training to deepen understanding of science learning & teaching using STC Units in the elementary classroom

- Each workshop immerses teachers in a lesson-by-lesson inquiry of the unit while developing an understanding of how science notebooks can support literacy and student understanding. Workshops are for teachers new to a district, new to a grade level, and veteran teachers who wish to deepen their skills in kit use.

Table with 2 columns: Location/ Dates /Times and Foundational Kit Use Workshop Offerings. Content includes Educational Service District 123 dates and Sifting Through Science workshop details.

Foundational Kit Use Workshops are offered only once this year so be sure to sign up with your district's LASER Contact person right away.
